Work Experience

Software Engineer | TCS | 2021 - 2024

- Developed full-stack applications using .NET, C#, and SQL.
- Implemented Docker-based microservices architecture.
- Worked on API development and database optimization.

Intern | ABC Tech | 2020 - 2021

- Assisted in AI model development using Python and TensorFlow.
- Built web-based dashboards for data visualization.

Education

Master's in Computer Science | EPITA | 2024 - Present

- Specialization in Information Systems Management.
- Focus on AI, cloud computing, and cybersecurity.

Bachelor's in Computer Science | PSNA College | 2016 - 2020

- Learned programming, data structures, and software engineering.

Skills

- Programming: Python, C#, JavaScript, SQL
- Frameworks: .NET, Flask, React
- Cloud & DevOps: Docker, AWS, GCP
- AI & Data Science: TensorFlow, OpenAI API, FAISS

Projects

AI Resume Screener & Ranking System

- Built an AI-driven system to analyze and rank resumes.
- Implemented Flask, PostgreSQL, OpenAI API, and FAISS.

Cloud-Based Authentication System

- Designed an authentication system using JWT and OTP verification.
- Deployed on Docker with PostgreSQL backend.
